

As a Siproimi Enea service in Mantova, we offer an update on the evolution of the Coronavirus health emergency - Phase 2: starting from May 4 2020 and for the following two weeks.

Also thanks for the sacrifices made so far we are managing to contain the spread of the pandemic, now the phase of living with the virus begins for everyone, where it will be even more important to keep the safety distances (at least 1 meter) and the use of personal protective equipment : masks (cannot be sold at a price greater than € 0.50) and disposable gloves and / or disinfectant solutions for the hands.

The masks are not mandatory for children under six years and for people with forms of disabilities that are not compatible with the continued use of the mask.

The use of masks on public transport is mandatory.

Movements (the obligation of self-certification remains): they will be possible within the same Region for reasons of work, health, necessity (shopping, buying drugs and telephone top-ups).

Few and short visits to relatives are also allowed: parents, grandparents, uncles, siblings, children and grandchildren, where it will still be mandatory to keep the safety distance and use protective devices; however, it is forbidden to stay at the home of a relative for a long period of time or to have lunch and dinner together; it is absolutely prohibited to visit friends.

Access to public parks will be allowed, respecting the safety distance, the entrances will be regulated in order to avoid gatherings. Individual sport activity will also be possible, always keeping the safety distance (2 meters): also sport activity with children and walks with non self-sufficient people are also allowed.

Those with fever above 37.5 degrees and respiratory symptoms have the obligation to stay at home and inform their doctor.

The catering activities, apart from home delivery, may offer a takeaway delivery service upon booking; the meal must be eaten at home or in the office (consumption must not take place inside the premises, nor outside of it).

Religious ceremonies remain suspended.

Work: starting from the 4th of May manufacturing, construction and commercial wholesale activities will resume, it will also be possible to go to the appropriate offices for recruitment interviews.

The two weeks from 4 to 18 May will be used to make an assessment on the trend of the pandemic, if the data on the new infections will be comforting then from 18 May, retail activities will gradually open, also museums and libraries and from 1 June bars, restaurants, hair dressers and beauty centers will re-open.

FOR EVERY DOUBT OR NEED CONTACT THE REFERENCE OPERATOR BY TELEPHONE, WHO WILL UPDATE YOU AS SOON AS THE NEW SELF-CERTIFICATION FORM IS PUBLISHED AND WILL SUPPORT YOU IN THE COMPILATION OF THE FORM.
